About Blythe Financial

Blythe Financial is an independent, owner-managed business, established in 2002.

We offer a range of investment solutions including a Discretionary Fund Management service that can be delivered either through our bespoke portfolio service or through our model portfolio service.

We act for private clients, pension funds, Trustee and Corporate clients and Independent Financial Advisers.

We believe in delivering an excellent service to our clients and partners, backed up by well thought through investment propositions.

We value long term relationships and believe that we act in an ethical, transparent and open manner. We are happy to engage with clients and partners as required and access to decision makers is assured.

We are licensed and regulated by the Isle of Man Financial Services Authority.

Investment philosophy

We take a long-term view to portfolio management and benchmark our performance against:

- Inflation as measured by the Consumer Prices Index ("CPI"), to ensure portfolios are providing real returns.
- A simple passive market benchmark, to ensure we are adding value.

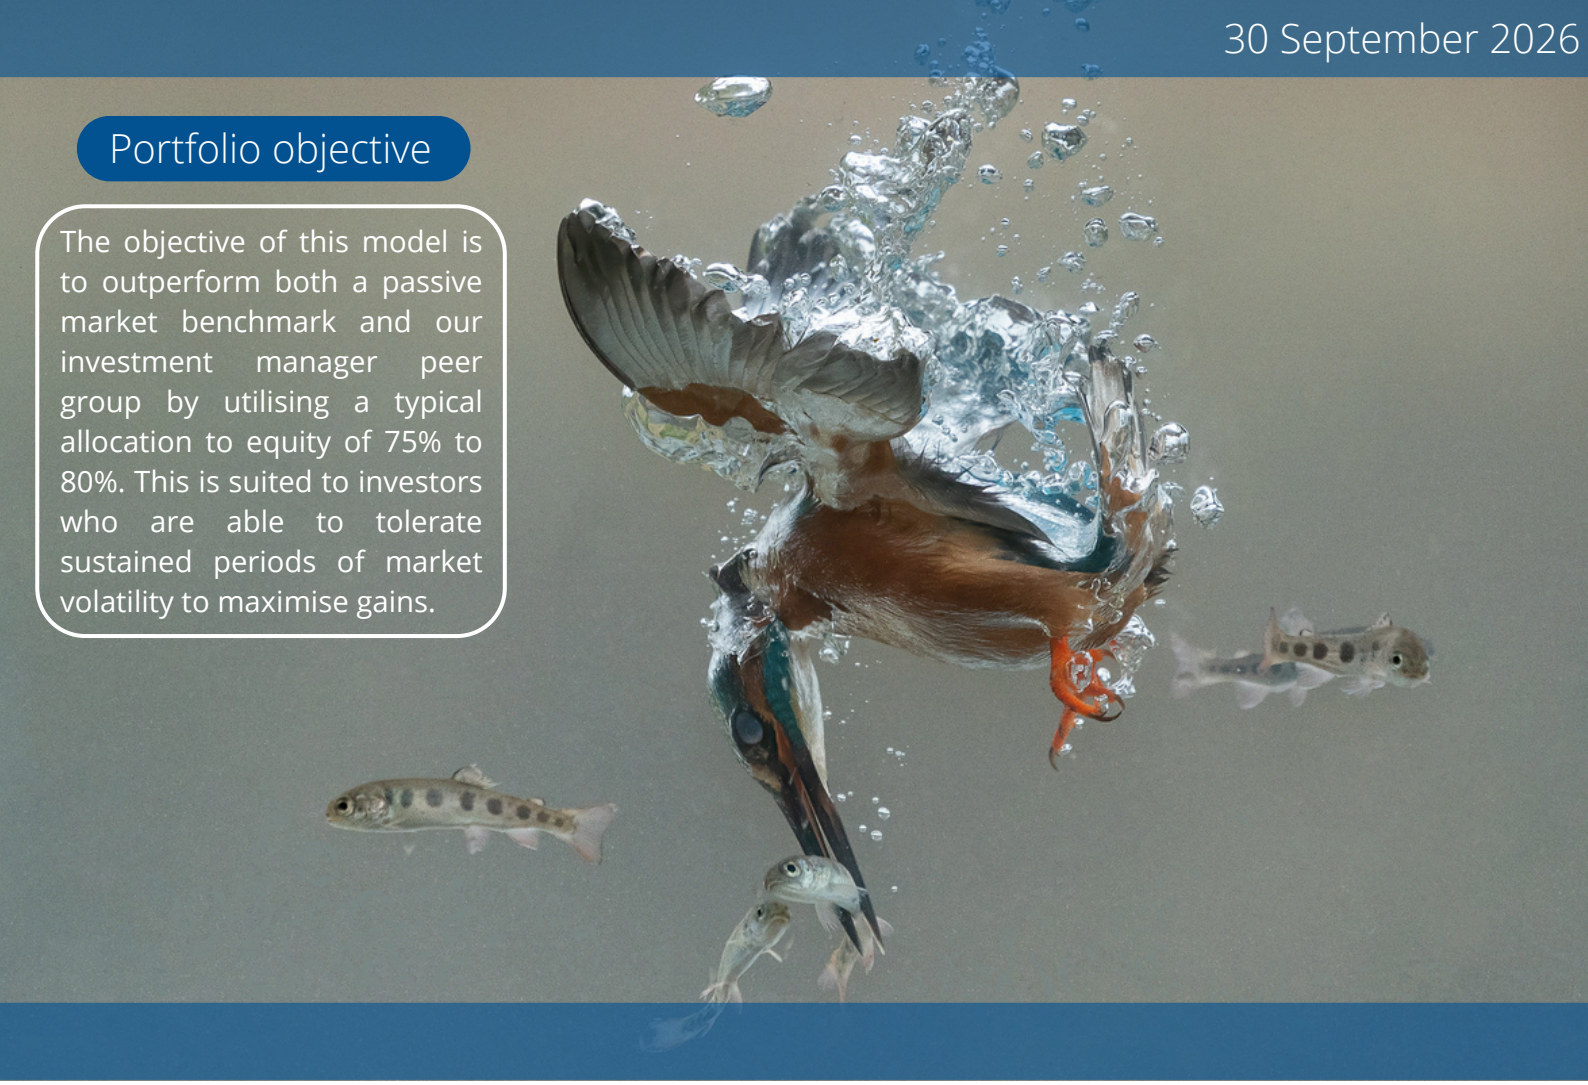

We are a multi-asset investor and feel that we add value to portfolios by thinking carefully about asset allocation decisions, as well as selecting the "best of breed" managers to deliver the risk adjusted returns we require in an optimally blended portfolio of assets.

Diversification is a key tool in our risk management strategy, and we pay close attention to correlation data both over the short and long term to ensure that the risk of loss is minimised.

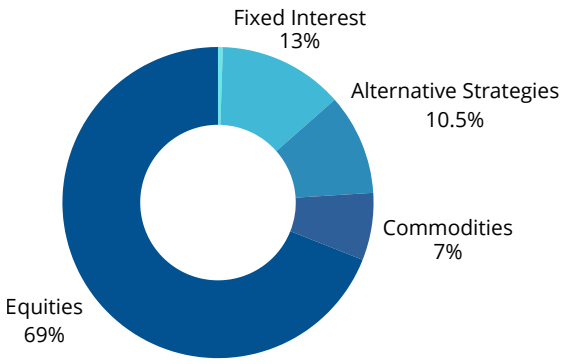

We can allocate investment across a broad range of asset classes including fixed income, equities, property, commodities, cash and alternative strategies.

Portfolio objective

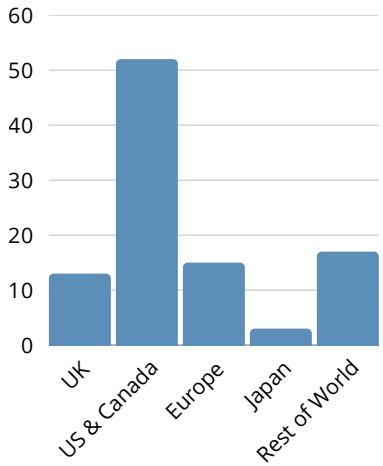

The objective of this model is to outperform both a passive market benchmark and our investment manager peer group by utilising a typical allocation to equity of 75% to 80%. This is suited to investors who are able to tolerate sustained periods of market volatility to maximise gains.
